

TERMS OF SERVICE – CONSULTING SERVICES

Description of Services: The Educational Bootcamp Coaching and Consultation Service provides an assigned educational consultant to your school for monthly and/or quarterly meetings. These sessions focus on school improvement, with a particular emphasis on increasing district and state assessment scores in math and science. Our Educational Consultants offer support tailored to addressing your school's largest instructional challenges related to math and science interventions.

Co-Teaching Model Integration:

Day 1: The classroom teacher observes our Educational Consultant model teaching a lesson, followed by a debrief session.

Day 2: The classroom teacher and Educational Consultant collaboratively plan a lesson for the teacher to conduct, followed by observation and feedback from the specialist.

Consultation Objective: The primary objective is to suggest best practices for analyzing data, identifying weaknesses, developing teachers' content skills, clarifying content within benchmarks, and constructing action plans. Our Educational Consultants provide real-time instructional modeling using strategies such as "Jump in Teaching," Be Smart Exploratory Questioning, and hands-on activities. Additionally, we facilitate the development of skills such as informal student assessment and identification of learning styles to create differentiated group plans, ensuring mastery of content.

Measurement of Effectiveness of Consultation: Our data analysis indicates that schools engaging in Bootcamp consultation sessions experience notable improvements in math and science scores. We track the number of schools each year that observe an increase in their assessment scores following our consultation services. The evidence supports the pivotal role of consultation sessions in enhancing teachers' effectiveness in implementing math and science programs.

Payment Terms: Payment for consultation services must be received in the form of a credit card or purchase order before the sessions commence. Schools acknowledge that registration for consultation services is contingent upon receipt of payment.

By engaging in Educational Bootcamp consultation services, schools acknowledge and agree to abide by these terms of service.
